PROPERTY ASSESSMENT FOR 2023-2024-2025

The property assessment roll is a summary of the inventory of immovables located on the territory of a municipality, evaluated on the same basis and on the same date. In effect for three fiscal years, it is used primarily to indicate the value of immovables to establish municipal property taxation.

The value of properties for this roll is based on the market value as of July 1, 2021, in accordance with section 46 of the Act respecting municipal taxation. The Gatineau Valley MRC is designated as the organization responsible for the assessment roll.

For this or any information request, contact the MRC at 819-463-3241, ext. 250. This is a voice mailbox, and your call will be returned promptly.

WASTE COLLECTION

Collection of organic materials (compost) began in January 2023. We encourage you to integrate the new habit of sorting residual materials and to deposit them in the appropriate bins.

Keep the collection calendar and check out our website for accepted and refused materials as well as some tips and tricks.

We must continue our efforts to reduce the amount of material going to landfill, which is directly related to the grants we are entitled to receive from RECYC-QUÉBEC. **The more you recycle and compost, the less it will cost in garbage fees!**
