Partial and occasional interference with the inter-rive link at the Paugan power plant

Hydro-Québec wishes to inform the public and its partners of partial and occasional obstructions to the Paugan generating station's inter-rive link, connecting the municipalities of Low and Denholm.

Maintenance work at the Paugan power station :

- Monday, **May 26** to Thursday, **May 29, 2025** from **9 a.m. to 6 p.m.**

The cross-river link will remain open during the work. However, depending on operations, drivers may have to wait a few minutes before being able to drive on the powerhouse deck.

Hydro-Québec is aware of the importance of this infrastructure for the local population, and thanks drivers, emergency services and municipalities for their cooperation and patience during our operations.
